Charity Prompt

Can't remember many or any of the charities organisations that exist in the UK?

Below is a list of organisations, which enable you to give your time, donate money or join to raise the profile of a particular issue. If you decide to run a social enterprise or run a campaign your activities might be directed at supporting a named charity.

The list is not complete. There are for example, just over 190,000 charities registered in the UK alone. Charities are involved in supporting a great variety of issues. These include amongst many other things not mentioned here work to support children, citizenship, disabilities, education, environment, faith, health, international, local concerns, poverty and animal issues.

Write here the names of any other charities you can think of, e.g local or smaller charities.
